**RELATED PLAINTIFFS' OMNIBUS REQUEST FOR
PRODUCTION OF DOCUMENTS TO DEFENDANTS**

Instructions

In accordance with Rule 26 and Rule 34 of the Federal Rules of Civil Procedure, all related Plaintiffs in the above-captioned cases, request that all related Defendants produce the following documents, records, and things for inspection and copying at the offices of Schlanger & Schlanger, LLP at **9 East 40th Street, Suite 1300, New York, NY 10016**. Please take notice under the Order of Chief Magistrate Judge Gold dated May 14, 2014 and by the agreement of the parties as confirmed on June 30, 2014, a party to whom a request is directed is to serve a written response thereto by July 30, 2014.

In accordance with the provisions of Rule 34(b), Plaintiff requests that each Defendant organize and label these documents, records, and data to correspond with the numbered paragraphs, subparagraphs, and categories in this request. If a document could be produced with respect to a narrow request or a more general request, it shall be organized and submitted with respect to the more narrow request.

Any request to which more than one document would apply requires production of all such documents. Accordingly, the use of any language in the request which could be

interpreted restrictively (e.g., to apply to only one of many relevant documents) must be interpreted expansively to include all such documents. A request framed in the singular includes the plural and requires production of all relevant documents.

Plaintiff requests a written response to the requests for production setting forth with respect to each request whether such documents exist, whether inspection will be permitted as requested, and, if not, stating specifically the Defendant's objections to inspection. If an objection based on privilege is asserted, identify the document, tangible item, communication, or information as to which the privilege is claimed in a fashion sufficient to allow the Court to determine whether the asserted privilege properly lies. To the extent that any documents previously produced by either Defendant are responsive to a request herein, Plaintiff further requests that the Defendant provide a written response identifying the previously produced document or documents. The requests are divided into "General" and Defendant-specific demands as indicated. All Defendants are to respond to all "general" demands.

If objections other than privilege are asserted, the statement of a general objection is not sufficient. Set forth any objections specifically and in sufficient detail to allow the Court to determine whether a motion to compel should be granted and the objection disallowed. If part but not all of a request is objected to, respond to the part to which there is no objection.

Each Defendant is under a duty to produce any documents in their possession, custody, or control, or in the possession, custody, or control of any of their agents, attorneys, accountants, partners, officers, or employees, and all others from whom they may freely secure these documents and things. These document requests are intended to be continuing in nature so as to require the addition of supplemental information.
